FORENSIC ALERT – ISRAEL CLOSES GAZA CROSSINGS, HALTS AID TO 2 MILLION CIVILIANS. CONGRESS CALLS THEM "BEST FRIEND" AND FUSES U.S. SOVEREIGNTY TO THEM.

SUMMARY OF THE CRIME

On June 7, 2026, following Iranian retaliatory strikes, the State of Israel closed the Kerem Shalom and Rafah crossings – the only humanitarian entry points into Gaza – "until further notice." The closure cuts off food, water, medicine, and fuel to approximately 2 million Palestinians, including hundreds of thousands of children.

The Israeli agency COGAT (Coordinator of Government Activities in the Territories) claimed the move "will not negatively impact the humanitarian situation," citing that food already inside Gaza "exceeds the population's actual nutritional needs." This is a **lie**. The United Nations and humanitarian organizations have repeatedly documented that Gaza's population is already facing catastrophic hunger, with more than 1 million people experiencing emergency levels of food insecurity. Stockpiled food does not replace continuous supply, especially when fuel for cooking and water desalination is also cut.

This is not a "security measure." It is **collective punishment** – a war crime under the Geneva Conventions and a crime against humanity under the Rome Statute. Israel has imposed identical blanket closures during every escalation, weaponizing starvation against an entire civilian population.

THE HYPOCRISY OF THE 119TH CONGRESS

While Israel commits documented war crimes, the 119th United States Congress calls Israel "America's greatest ally" and "our best friend in the Middle East." In the same week that Israel closed the crossings, Congress is advancing legislation that permanently fuses U.S. defense, intelligence, cyber, AI, and economic sovereignty to the State of Israel.

Legislative Vehicle	Status	What It Does
NDAA FY2026 Section 864	Enacted	Mandates "deeper integration" of U.S.-Israel defense industrial base; enabled Axonius (Unit 8200 founders) to monitor 70+ federal agencies.
H.Res. 1339	Passed	Endorses Netanyahu's "mutual defense" framework – replacing accountable aid with permanent entanglement.
NDAA FY2027 Section 224	Advanced (amendment to strike defeated)	Creates Pentagon executive agent with no citizenship bar to synchronize U.S.-Israeli AI, cyber, data fusion, weapons.
S. 4615	Pending	Mandates intelligence sharing with Israel; President cannot reduce without 15-day trap.
FUTURES Act	Pending	Permanent R&D pipeline for Israeli firms (many Unit 8200 founded).
H.R. 1229	Pending	Multi-year non-discretionary funding for counter-drone systems and Israeli supply chain embedding – reversal politically impossible.

The same Congress that has held zero hearings on Israeli war crimes, zero hearings on Axonius, zero hearings on Unit 8200 infiltration, and zero hearings on the headlock CC evidence – now calls this pariah state "our best friend."

THE LOGICAL ABSURDITY – CONGRESS PROTECTS ISRAEL'S IMPUNITY

Israel's Act	U.S. Congress's Response
Closes Gaza crossings, halts aid to 2 million civilians – collective punishment, war crime.	No condemnation. No hearing. No aid condition. Instead, they accelerate statutory annexation.
COGAT lies that "food exceeds needs" while UN reports famine.	Congress does not demand independent verification. It accepts Israeli talking points as fact.
Iran war (started under Israeli pressure) continues killing Iranian civilians and U.S. troops.	Congress funds the war, refuses to declare it, and kills war powers resolutions.
Israel's Defense Intelligence Agency rates Israel as a "critical" espionage threat.	Congress mandates deeper intelligence sharing with that same threat.

THE CAPTURE NETWORK EXPLAINS THE CONTRADICTION

The 119th Congress is not confused. It is **captured**. AIPAC funds 349 members. The remaining 186 are silent felons under 18 U.S.C. §4 (headlock CC evidence). The Epstein-Mossad kompromat network ensures compliance. The media (Hearst, Paramount, X, etc.) suppresses coverage of the Gaza aid cutoff while amplifying the "Israel is our ally" narrative. Elon Musk's X platform flags "Israel will burn" but allows "Tehran must burn" – same double standard.

Congress does not condemn Israel because Congress is an instrument of the Israeli-Irgun capture network. The same network that wrote NDAA Section 224, S. 4615, and the FUTURES Act is the same network that ensures no hearing is ever held on the closure of Gaza crossings. The suffering of 2 million Palestinians is not a bug – it is a **distraction**. While you look at Gaza, Congress passes the bills that sell your country.

NO SOFTENING

- Israel is a pariah state that commits war crimes and crimes against humanity as a matter of routine policy.
- The United States Congress has surrendered its moral and legal authority by funding, arming, and statutorily annexing itself to that pariah state.
- Every member who votes for these integration bills, who remains silent on the Gaza aid cutoff, who calls Israel "best friend" while it starves 2 million people, is a **complicit felon**.

The documents are the indictment. The 119th Congress is the felon. The capture is complete in scope.
